

# Suyash Pawar

Full Stack Developer and CS Undergraduate

suyashani990@gmail.com | 8821881199 | Bhopal, Madhya Pradesh, | [linkedin.com/in/suyash-pawar-a2baa1293](https://www.linkedin.com/in/suyash-pawar-a2baa1293)

## Summary

Full Stack Developer and Computer Science undergraduate with hands-on experience in building secure, scalable, and real-world web applications. Strong in JavaScript, backend architecture, and modern frontend development. Passionate about clean code, system design, and solving practical problems through well-engineered solutions.

## Skills

HTML5, CSS3, JavaScript, React.js, GSAP, Framer Motion, Node.js, Express.js, REST APIs, MongoDB, Mongoose, JWT, Cookies, bcrypt, Git, GitHub, VS Code, Agile, Jira, Atomic Transactions, Idempotency, Middleware, Ledger Systems

## Education

|                                                            |      |
|------------------------------------------------------------|------|
| <b>B.Tech in Computer Science Engineering</b>   CGPA - 7.2 | 2027 |
| Technocrats Institute of Technology, Bhopal                |      |
| <b>Class XII in PCM</b>   Percent - 68%                    | 2021 |
| St. Joseph Co-Ed School, Bhopal                            |      |

## Achievements

Participated in national-level hackathons, Top performer in Full Stack Development bootcamps, Built production-ready frontend and backend modules independently

## Project Experience

### Backend Banking System

Built a secure backend banking system with authentication, account management, and fund transfers. Implemented JWT-based auth with cookies and token blacklisting for secure sessions. Designed an immutable ledger-based accounting system; balances calculated via aggregation queries. Ensured data consistency using MongoDB transactions and idempotent transfer handling.

### Personal Finance Tracker

Developed a full-stack finance tracker with secure authentication and user-specific data. Built CRUD APIs, inline editable tables, and real-time balance calculations.

### Chat Analyzer Tool

Created an NLP-based tool for chat analysis with sentiment detection and word-cloud insights.
